Work Experience

OWASP GEN AI SECURITY PROJECT Hybrid

Marketing & Outreach Intern, Author of Official Newsletter May 2025 – August 2026

- Managed cross-platform campaign performance tracking to optimize audience engagement for high-profile cybersecurity initiatives.
- Authored the OWASP GenAI Security Project's monthly newsletter beginning October 2025, leading content development, technical summaries, and distribution.
- Coordinated multiple global webinars, managing speaker outreach, scheduling across time zones, and end-to-end event logistics.
- Supported content migration for OWASP's new company website, ensuring accuracy and alignment with brand and project goals.
- Traveled to NYC to coordinate real-time media coverage for Open Source Week 2025 at the United Nations, producing content viewed by thousands across global markets.
- Applied data-driven decision making to deliver results, boosting OWASP's LinkedIn and Newsletter engagement by over 50%.

RISE MARKETING AGENCY Santa Barbara, California

Strategy Consultant August – September 2025

- Served as Strategy Consultant for a student-run marketing agency partnering with Healing Justice Santa Barbara.
- Conducted market research, competitive analysis, and audience segmentation to develop a data-driven communications plan.
- Lead the creation of performance metrics to assess campaign ROI, integrating both qualitative stakeholder feedback and quantitative engagement data.
- Collaborated with a cross-functional student team to deliver strategic recommendations to the client for long-term brand growth.

SHE MEANS BUSINESS Santa Barbara, California

Co-Author April – June 2025

- Co-developed a comprehensive CSR proposal for a partnership between BRAC and Absa Bank to address gender-based economic inequality in Africa and South Asia.
- Designed a multi-pronged operational model incorporating financial literacy training, microloans, and peer mentorship to support women entrepreneurs.
- Created evaluation metrics (financial, empowerment, and sustainability KPIs) to measure program success, including loan repayment rates, banking adoption, and long-term business retention.
- Conducted extensive research on international development, microfinance, and corporate–NGO partnerships to ensure data-driven, realistic, and scalable recommendations.

RELEVANCE PROJECT Santa Barbara, California

Lead Data Analysis Researcher August – December 2024

- Designed survey methodology including question development, data collection, and measurement scales to assess correlations between celebrity endorsements, brand trust, and purchase intention.
- Managed end-to-end research process, including survey creation, respondent outreach, and statistical data analysis in Excel.
- Quantified findings using descriptive statistics and comparative analysis, producing actionable insights into consumer behavior patterns.
